

THE GOVERNMENT PRINTING OFFICE, 1896.

GOVERNMENT PRINTING OFFICE.

ANNUAL REPORT

OF THE

PUBLIC PRINTER

FOR THE

FISCAL YEAR ENDING JUNE 30, 1896.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1896.

ANNUAL REPORT
OF
THE PUBLIC PRINTER.

OFFICE OF THE PUBLIC PRINTER,
Washington, D. C., December 14, 1896.

SIR: I have the honor to submit herewith the annual report of the operations of the Government Printing Office for the fiscal year which ended June 30, 1896.

Very respectfully,

TH. E. BENEDICT,
Public Printer.

Hon. A. E. STEVENSON,
President of the Senate.

To the Senate and House of Representatives :

It is to me a matter of great pleasure that I am permitted this year, in submitting the customary annual review of the operations of this office, to acknowledge the aid of Congress in the carrying out of many reforms and improvements which have been advocated by my predecessors and myself for many years. I am convinced that no Public Printer has heretofore been enabled to report so favorable a condition of the office and its work as it is my good fortune to do this year. It is but proper to say that in the efforts I have made to bring to a practical solution many of the difficulties involved in the management of the office I have felt that I was but carrying out the wise purpose of Congress, and without its intelligent sympathy and ready help I could have accomplished nothing.

The office owes its creation to Congress. The initial plans to expand it to the constantly growing needs of the Government, and to make it worthy, in mechanical appliances and progressive methods, of the character and intelligence of the American people, have almost invariably originated with the printing committees of Congress or with patriotic members of the two bodies.

Nearly fourteen years ago Senator Anthony, of Rhode Island, chairman of the Joint Committee on Printing of Congress, interrupted a tariff debate in the Senate to ask unanimous consent to offer a resolution which he said he verily believed was "important to the salvation of human life." The resolution related to the overloaded floors of the Government Printing Office, and called for an appropriation to provide leased space to which material could be removed to relieve the building and secure the safety of the lives of the employees. The condition thus early recognized, and for the relief of which but temporary provision was made, has actually continued to exist until the present year. It is difficult, and perhaps impossible, for any person not intimately acquainted with the affairs of the office to understand how inadequate for many years was its space, machinery, and material to the increasing and often extraordinary demands made upon it.

It is not of moment now to discuss the reasons why the office continued to exist for so long a time in a practically crippled condition, but it was undoubtedly a difficult matter to estimate the effect of legislation which created the office and at the same time closed other avenues of printing to nearly all offices and departments of the Government at a period of the greatest growth of the Federal service. It is a subject now of far greater interest to myself, and I trust to Congress also, to detail the recent steps by which past deficiencies have been remedied.

In performing this pleasant duty I would first cordially recognize the efforts of others in urging forward the work that has finally been accomplished. Every year since the date of Senator Anthony's resolution Senators and Representatives, Government architects and engineers, grand juries, and my predecessors have called attention to the structural weakness of the office buildings, the insufficient working space, the insanitary surroundings, and the dangerous and disagreeable conditions under which the work of the public printing was carried forward. These conditions required constantly the resort to expensive expedients in order to prevent a paralysis of work, though these expedients were never sufficient to bring the work up to date or to prevent the recurrence of the evils of overcrowding and overloading, so detrimental to efficient management and the comfort and safety of the employees.

To provide a remedy for these various difficulties and embarrassments was a cause of much study on my part very early in my official connection with the office, and it was a clear recognition of them that impelled me in four previous annual reports to Congress, and in various special

communications, to urge with all the earnestness and force I could command the importance of providing safe and sanitary buildings, increased working space, and improved machinery and material for the office. There seemed to be no other way of reaching a condition that would permit a prompter and more economical performance of work, and while recognizing fully the generous assistance of Congress, I can not help but feel a high sense of personal pride and pleasure in now being able to state that the office is in first-class condition, that plans early formed by me in regard to it have been carried out, and that unceasing effort toward improvement of surroundings, simplification of methods, businesslike management, and a high standard of work, economically and expeditiously performed, has been crowned with success.

RESULTS ACHIEVED.

The period embracing the past fiscal year and the present fiscal year up to date has witnessed, without a moment's abatement of work, the full completion of the additions to the working space of the office that were recommended by me and ordered by Congress; the completion of the new west wing and other floors, under direction of the Chief Engineer of the Army; the erection of the new boiler house and boilers, machine shop, and storage sheds; the furnishing to the entire main office of the new heating plant, toilet rooms, and ventilation and filtration systems, besides the carrying out of many improvements in the various divisions of the office, such as providing better light, improved facilities for cleanliness and for promoting the comfort and convenience of the employees in many respects. Besides these, a number of new machines have been purchased and erected in the office, greatly adding to its productive capacity, new type and other printing material have been freely supplied where needed, and reserve material accumulated sufficient in amount to meet the extraordinary demands for hurried work, to which at times the office is peculiarly subject.

Fully 120,000 square feet of floor space has been added to the office by the recent additions and leases. I am pleased to acknowledge at this time the kind cooperation of the Secretary of War and the Secretary of the Navy in providing more convenient and larger quarters for the branch divisions of the office that are located in their Departments.

In view of the data at my command, I feel justified in assuring Congress that at the present time the Government Printing Office is fully able, in equipment and organization, to perform all the Government printing as promptly and economically as is possible until complete new and modern office buildings are erected. While its floor space as now occupied is much divided, and in some cases inconvenient, yet it is abundant, is largely equipped with the best modern machinery, current work is promptly executed, delayed work has been brought up to date, and the accumulation of reserve work has been largely reduced.

I consider that the office is now in a position to meet all probable demands upon it for a considerable period of time—at least a sufficient period to enable Congress to intelligently and systematically take up the work of providing an entire new office, with the purpose of making it a model establishment.

EMPLOYEES BENEFITED BY IMPROVEMENTS.

While the saving in money and time as a result of enlarging and improving the office is an interesting and important consideration, and must inevitably within a short period of time reimburse the National Treasury for the full cost of the same and afford a continuing profit upon the work of the future, it is but a trifle compared to the advantages conferred upon the employees by the conveniences and comforts with which they have been surrounded. No result accomplished during my connection with the office affords me personally so much gratification as to witness the effects of greater convenience in the matter of warmth, light, ventilation, and cleanliness and freedom from overcrowding and apprehension of danger upon the working efficiency and physical health of the employees. In many improvements undertaken I have been actuated in a great degree by motives of humanity as well as by business reasons, and I am satisfied that the interests of true economy have been largely subserved by liberal expenditures solely in the interest of the health and comfort of the employees. The industrial activity, the harmony, and the energy of the working forces have been most favorably affected.

As a result of the many improvements that have been made to the office during the past two years, I am happy to say that all apprehension as to the loss of life from insecure buildings is removed.

SOURCES OF DANGER REMOVED.

1. The full occupancy of the new west wing and of the floors of the new fifth story of the south wing has rendered possible the removal of the overweight of machinery and material from the H street side of the office.

2. The extensive application of directly connected electric motive power to the many machines upon the floors of the H street and North Capitol street wings has permitted the removal of much weight of shafting and connections, and largely reduced the vibrations attending the old method of power supply.

3. The erection of the new boiler house and boilers at a safe distance from the working divisions permits the abandoning of the old boiler plant in the court, except for the moderate use of supplying extra heat in extremely cold weather.

4. The new electric power and lighting system, which has been pronounced a model of insulation by all electrical engineers who have examined it, has largely reduced the probability of fire and accident which

attended the cruder methods of the past, made possible better light and cleanliness in the various divisions, and, taken in connection with the new toilet and filtering system and other sanitary provisions, removed discomforts and inconveniences that menaced the health of employees.

I can unite with the employees of the whole office in an expression of thanks for the liberality that has permitted these desirable results.

NEW GOVERNMENT PRINTING OFFICE.

It is not intended to convey the impression by anything previously stated that the improvements affect in any way the argument in favor of providing a new Government Printing Office at as early a date as possible. Unless Congress proposes to eventually abolish this office and return to the contract system, it is its unmistakable duty to provide at once for a fully equipped model establishment in which the Government's printing can be executed at the minimum of cost, and of which every American printer and bookbinder may be proud. The amount of money expended would be speedily saved to the Government in smaller appropriations, while its necessity is apparent, in view of the inevitable growth of public printing in keeping with the progress of the country.

Abundance of time and due precaution should, however, be taken, in order to prevent the carrying out of any incomplete or inadequate plan. When built, the office should be one of the attractions of the capital city, and it should possess the highest economic, mechanical, and scientific achievements in the arts of printing and binding of the present day. Its lines should be laid upon plans broad and comprehensive enough to meet not only the demands of the near future, but the necessities of the coming century.

It is easy for one acquainted with the history and growth of this office to understand the urgent necessity that will arise within a few years for a new office such as is suggested. There has been with every year of the existence of this office a steady increase in the volume of work, and this increase will be accelerated rather than diminished as the country continues to grow in wealth and population, for the printing art is closely related to the progress of civilization and keeps in close touch with every department of human intelligence and activity.

In my judgment, no step should now be taken by Congress toward erecting a Government Printing Office that is not based upon the most careful plans and expert knowledge. A proper commission should be first appointed to procure and present the fullest information in regard to the larger private printing offices of the country. Every detail of the progress of the art should be mastered. The building, architecturally, should be designed for a printing office, and for no other purpose whatever. The question of a site is of minor importance. A printing office is a workshop, and this is true in a more particular sense of the Government Printing Office than of many private concerns which oftentimes are

mere adjuncts to publishing houses engaged in advancing the interests of literature and art. The building should be perfectly adapted in light and floor space, in ventilation and heating, in sanitary conditions, and in its mechanical plant to the perfect execution of the Government printing at the minimum of cost. It might, with the highest advantage to the Government, be made ideal in its appointments and appliances—an exhibit of the progress of the highest humanity and intelligence in building construction, as well as of the highest economy and efficiency in the printing trade.

PREPARATION OF COPY AND INSTRUCTIONS AS TO PRINTING.

Occasion is taken herein to acknowledge the cooperation of various officials of the Departments of the Government in an endeavor to secure greater care in the preparation of copy and in the furnishing of full instructions for work ordered by requisition from this office. In the past there has been considerable friction in certain directions as to where the responsibility of the Public Printer began and ended in the matter of printing for the Departments, and at times positive maladministration has characterized this feature of the business of the office through editorial work done in proof sheets, changes from fixed style, and the frequent insistence by Department officials upon the use of unnecessarily costly material.

A strict interpretation has been given by me to the statute which requires that "the forms and style in which printing and binding ordered by the Departments shall be executed, and the material and size of type to be used, shall be determined by the Public Printer, having proper regard for economy, workmanship, and the purposes for which the work is needed." This provision of law is broad enough to give the Public Printer power to meet all proper requests of the Departments, and it is clearly intended to prevent improvident execution of the public printing, which long experience has shown to be one of the easiest methods of wasting the public money. I have recently addressed a circular to the heads of all Departments asking official aid in an endeavor to secure more careful observance of the instruction blanks which the office asks to have filled out when requisitions for printing are made. These instruction blanks are the result of expert knowledge and mature experience of men who have long been connected with Government printing, and only through their use can prompt and economical results be achieved.

It has been my desire to do away as far as possible with all changes in material and in the style of doing work after it has been commenced, and especially to stop wholesale editing of proof sheets—a privilege so dear to the hearts of many gentlemen engaged in literary work for the various publications of the Government. Whatever fancied necessity may have existed in the past for the furnishing of type proofs by this office for the encouragement of literary style or to give opportunity

for the insertion of belated ideas, it does not exist in this age of the typewriter.

The best results in the direction noted have followed the assistance afforded me by the heads of Departments; but the evils are persistent ones, with a constant tendency to reappear just when matters are running smoothly and peace and harmony prevail. It would appear that only the most rigid enforcement of the power of the Public Printer regarding the perfection of requisitions and of copy can effect a permanent reform, and I sincerely hope the office will continue to receive in these matters the assistance of all who by law have authority to order printing and binding, in order that wasteful and needless use of public money in this indefensible manner may be prevented.

PAPER CONTRACTS.

The suggestion in my report of last year, that the provisions of the statute relating to the methods of letting paper contracts be so changed that bidders will be required to submit samples of the paper they propose to furnish instead of bidding upon samples furnished by the Government, is renewed. The deficiencies of the present system have long been apparent. It would be quite sufficient to indicate by the standard trade terms the quality, weight, color, strength, and finish of the paper desired by the Government. Limited to bidding on their own samples, bidders would compete as to the quality of paper to be furnished, and each bidder would doubtless bid upon the actual product of the mill he represented, thus affording the Government a greater choice of samples than at present, and removing from bidders the temptation to bid upon samples of paper which they can not furnish. I am pleased to say that the paper contracts of the past year have been the most satisfactory of any year during my administration of the office.

IMPERFECT ILLUSTRATIONS.

There has been recently no little just criticism of the imperfect illustrations appearing not infrequently in Government publications. It is easy to explain the cause and growth of this admitted evil. In former days woodcuts were almost exclusively used for the purposes of text illustrations, and uniformly good results were easily possible. The cheap and numerous methods of producing engravings at the present time have caused something like artistic chaos in the Government Printing Office, and apparently the photo-engraving process, particularly the kind known technically as "half-tone," is considered by some in authority as equal to any demand for the illustration of documents.

No doubt the various photographic processes of zinc etching have produced remarkable results in cheap popular newspaper and magazine illustrating, but it is not always desirable for the Government to copy

fads. The production of new engraving processes and the multiplication of engraving houses are peculiarly characteristic of the time; but they have burdened the Government Printing Office with rather too much responsibility for results that are a grievance to good printers everywhere.

There is little technical knowledge and less effective artistic supervision prevailing in Government Departments as a rule regarding illustrations. Some of the publications divisions show admirable judgment and good taste in such matters. In others the most amateurish notions prevail as to the character and quality both of engravings and of copy for illustrations. One of the greatest drawbacks to good results is the carelessness or lack of knowledge that seems to prevail as to the relation of subject, paper, text, ink, and other practical details to the different styles of engraving. Another is the popularity of the amateur photograph as copy for process plates. Pressmen can hardly be expected to produce the best results from imperfect plates on inferior paper, and I look hopefully toward the Departments and Bureaus for early improvement in these matters. This office is prepared to respond to the best efforts that may be put forth by them. It is now equipped with the best modern presses, I have secured the best obtainable pressmen, and its electrotype foundry is recognized as one of the foremost and most progressive in the world. Through cooperation something may be done to prevent a too lavish display of preference for many and cheap rather than few and really artistic illustrations in Government publications.

NEW MACHINERY.

The work of replacing old and deficient machinery and presses with newer ones of the most modern construction has proceeded steadily during the past year. The office now has several machines of great labor-saving advantages, and others specially designed for Government work and not used by the trade elsewhere. The gain in greater speed and capacity thus secured has been a most important factor in the success achieved in promptly meeting current orders and bringing delayed work up to date. This office now undoubtedly contains the largest and most complete book-making plant in the country, and doubtless in the world. As such it is a constant object of interest to and commendation of the printers and publishers of the country and the representatives of foreign Governments who visit it.

INCREASE OF GOVERNMENT PRINTING—COMPARATIVE COST AND PRODUCTION.

The increase in the amount of printing done by the office during the past fiscal year was much in excess of the average yearly growth of the past. The use of paper was the largest in its history, reaching a total

of 5,457¹⁵¹/₂₀₀₀ tons of book, writing, ledger, plate, and other printing papers, this being 910 tons more than was used the year preceding, and 634 tons more than was ever before used in a single year. The number of form impressions in the press room of the main office, not including the press rooms of the Department branches, was 179,228,469, an increase of 65,582,361 impressions over the previous year. The bindery consumed 490 tons of binder's board, 6,102 pieces of book cloth, 4,300 dozen sheepskins, besides other leather; bound and delivered 1,255,454 octavo and quarto volumes in cloth and leather, not including blank books and ledgers, and brought up the reserve binding of Congress nearly complete to the Fifty-fourth Congress, a gain of 92,520 bound books in this much-delayed work. There were printed and delivered 6,461,063 bound and unbound pamphlets and speeches, and of the House and Senate bills, resolutions, and amendments 11,175,105 copies were printed and delivered, being 5,468,255 copies in excess of the number printed and delivered at the previous long session of Congress. All this increase of work was met promptly and to the satisfaction of the public service.

As an evidence of the growth of the public printing, it is of interest to compare last year's use of paper, cost of labor, and number of employees with the year 1887, the office during both of these years being under my charge. In 1887 there was paper used to the amount of 2,718 tons, at a cost of \$1,827,315.22 in labor. Last year there was consumed 5,457 tons of paper, and the labor cost was \$2,657,267.43. The daily average number of employees of the office during 1887 was 2,095; in 1895 the average number was 2,828. The cost of labor last year was increased fully \$75,000 over the cost of 1887 by reason of a higher scale of wages being paid in several divisions of work, and because of additional labor incident to the many improvements. Notwithstanding this addition to labor expenses, a comparison of the results of 1887 and 1896 shows that while the use of paper has increased 101 per cent during the ten years, the increase in the cost of labor has been but 44.8 per cent, and the increase in the number of employees but 35 per cent. The cost of labor in the office last year was \$222,049.66 less, and the average number of employees was 553 less, than in 1894, while the consumption of paper was 634 tons more than during that year.

During the current fiscal year still better results may be expected in output, standard of work, and economies, as all the advantages of additional space, new machinery and material, and improved methods of work will attend the full year's operations.

IMPROVED STANDARD OF PUBLICATIONS.

The use of superior paper and other material, with the hearty cooperation of skilled and intelligent employees in the typographical, foundry, and press divisions of the office, has resulted in a more noticeable improvement in the publications of the office during the year than ever before.

The excellence of the typographical appearance, illustrations, press-work, and binding of some of the publications has not only brought most flattering testimonials from the Departments and library and printing circles at home, but has attracted the attention of the book-making world abroad, and in two instances the diplomatic heads of foreign Governments here have made direct and particular inquiry as to the work and methods of the office.

CIVIL SERVICE.

The working force of the office during the year has been conducted most satisfactorily within the classified civil service. The new appointees selected from the certified lists have averaged as well as those who were selected heretofore at the will of the appointing power.

The annual leave of absence with pay to employees afforded an opportunity to provide work during the Congressional recess to the surplus force, and the usual large reduction at that time was avoided. The average daily number of employees during the year has been 2,828, an increase of 151 over the year previous. The changes in the force during the year were as follows: 27 died; 115 resigned; 15 were dropped from the service on account of absence; 25 were discharged because of reduction of force, and 19 were discharged for cause; 15 probationary appointments were canceled, and 10 were refused absolute appointments; there were 161 persons reinstated to the service, and 163 probationary appointments made, of which 132 received absolute appointments. All appointments and reinstatements were made from names certified by the Civil Service Commission, and in all discharges and appointments made the full spirit of the merit system was observed.

THE BUREAU OF DOCUMENTS.

Accompanying this report is a statement by Mr. F. A. Crandall, Superintendent of the Bureau of Documents, as to the work of that new division, authorized and established by the printing act of January 12, 1895.

The results he has accomplished the past year are very gratifying, and have received the unstinted praise of librarians and others interested in Government publications. I believe that the work of this division, if carried out according to present plans, will present at an early day a more intelligent and complete arrangement of Government publications, with their catalogues and indexes, than can be found elsewhere, and will afford public officers, students, and writers opportunity for easily ascertaining the contents of many volumes which are now practically useless because of these deficiencies.

ENGINEERING AND ELECTRICAL WORK.

There is also presented, by Mr. George E. Reid, chief engineer, and Mr. W. H. Tapley, chief electrician, interesting details showing the high degree of efficiency obtained under their direction of the power and

lighting plants of the office. Their work has met the approval of experts, and the economy and efficiency secured are not only noticeable in comparison with past methods here, but they compare most favorably with the best work of the kind elsewhere.

The Government Printing Office power and lighting plant is now for the first time such as will prevent interruption of its work by reason of the failure of any single source of power or lighting supply.

WORKING SPACE ILLUSTRATED.

The Government Printing Office now occupies $8\frac{3}{4}$ acres of floor space. Accompanying this report are diagrams of all the floors of the main building and leased buildings, and of the branches in the Departments. The storehouses and stables are not included. These diagrams will illustrate to Congress and the public the magnitude and importance of the office, the location of each division, the nature of each division's work, and the location and character of the machinery. These, I believe, will be of especial interest to employing printers and binders and all those connected with the trades represented here.

I am pleased to express the utmost satisfaction with the cordial support given my efforts by Capt. H. T. Brian, Foreman of Printing, and Mr. H. C. Espey, Foreman of Binding, and their intelligent and loyal assistants in all the mechanical divisions of the office. Throughout the entire large force of industrious operatives there has been a spirit of zeal and emulation displayed which has made the year memorable for faithful service and excellent results, and commands my admiration and gratitude.

TH. E. BENEDICT,
Public Printer.

REPORT OF THE SUPERINTENDENT OF DOCUMENTS.

GOVERNMENT PRINTING OFFICE,
OFFICE OF SUPERINTENDENT OF DOCUMENTS, UNION BUILDING,
Washington, D. C., July 1, 1896.

SIR: Agreeably to your suggestion, I transmit herewith, for incorporation in your annual report, a brief summary of results attained in the work of this office during its first full year of duty.

My first annual report, dated October 1, 1895, was only nominally an "annual report," as the office had at its date been in existence but six months, and in active operation hardly more than three months. The present report covers the operations of the office for its first full fiscal year, namely, from July 1, 1895, to June 30, 1896.

During that period this office has received a total of 486,914 public documents of all kinds, of which 252,602 volumes were accumulations from various Government Departments, 143,091 were new work from the Government Printing Office, 31,321 were duplicates returned from public and college libraries, and 60,000 (estimated) were copies received from the Printing Office and the various Government publishing bureaus to be catalogued. Of the documents received, 189,524 were distributed as follows: To depository libraries, 105,170 volumes; to libraries other than depositories, 65,823; specific works distributed according to law on the order of Members of Congress, 13,580; supplied to Government Departments and Bureaus to complete official files, etc., 951; sold, 3,581 copies for the sum of \$889.09. The remaining copies, 297,551 in number, have been preserved in this office, where they are assorted, classified, and made available for use. It seems to me a moderate estimate to say that the value of the public documents thus reclaimed from the vaults and lofts of Departments and libraries, where they were entirely useless, is half a million dollars. Their first cost was certainly much more than this.

From these rescued documents a document library of about 15,000 distinct publications has been created, "accessioned," shelf listed, etc., so that it is immediately available for reference, not only in our own work, but for the convenience of all who choose to use it.

The depository libraries, which numbered 420 October 1, 1895, now number 445. A new list of libraries, to receive the fractional remainders of Congressional quotas under the provisions of section 68 of the printing law, has been created by Congressional designation, and now numbers 253. To libraries of this class 9,359 volumes have already been sent, and this has been accomplished under the new law without printing an additional book by utilizing books which formerly belonged to nobody and went to waste. Many more books are in sight for speedy sending to this class of libraries. An additional list of libraries, numbering at this time 623, has been created, to receive the publications of the United States Geological Survey, under section 79 of the printing law and joint resolution 19 of the Fifty-fourth Congress. To this class of libraries 54,749 publications have already been sent, and many more are to be sent at an early day. Thus, instead of the 420 libraries which were on the list when I reported to you last year, we have now 1,321 libraries to which we send regular supplies, and we have had exchanges with many which are not regularly on our lists.

I have also had added to the mailing branch of my work a list of addresses for the Compilation of Messages and Papers of the Presidents, which, when the Congressional designations are all in, will make a subscription list of 21,000 names for a work which is now expected to fill at least seven volumes and to be in course of publication for several years. Only those who have handled such a list under similar circumstances can form an idea of the amount of work and attention to detail it involves.

During the year the following works have been produced for publication: Eighteen monthly catalogues, aggregating 701 pages; Checklist of Public Documents, 222 pages; first annual report and tables, 36 pages; first draft of a proposed bill to reduce the cost, increase the value, and simplify the methods of publication of the public documents furnished to designated depository libraries, 17 pages; Document Catalogue (or Comprehensive Index), 638 pages; an aggregate of 1,614 printed pages, of which 1,561 pages are catalogue work, while enough additional work has been done in preparing copy for the second Document Catalogue and the first Document Index (or Consolidated Index) to make the first year's cataloguing fully equal to 2,000 printed pages.

The official correspondence of the office has been almost overwhelming in its voluminousness. I have not been able to spare the clerical assistance necessary to keep a count of the letters written, but I estimate the number at not less than 20,000, and of course an equal number were received. For long periods they have averaged more than 100 per day on each side of the count. They came from everywhere and treated upon almost everything conceivable relating in any way to the public documents. Indeed, this office seems already to be generally regarded as a universal bureau of information on this subject. Numerous public officials receiving letters of inquiry relating to documents not within their immediate purview have referred them to me, thus increasing the already great number of queries pouring in. I am far from objecting to this. I assume that one of the purposes in establishing this office was to create an information bureau for documents, and that function it very willingly undertakes to fulfill. In his Forum article on the Government as a great publisher, Mr. Spofford said that the lack of adequate catalogues of public documents was measureably offset by the existence of "living indexes" in Washington. This office is fortunate in the possession of one of these living indexes, and is doing something also to provide the catalogues which are so sadly needed.

The sales of documents have reached an average of over 1,000 a month, and this class of the work of the office involves a vast amount of labor in looking up old and obscure documents to which correspondents can not give intelligible references, answering inquiries for documents which we are unable to supply, and supplying price lists to correspondents from whom we get no orders. Work of this sort does not show in the monthly and annual reports, but I see no way to escape doing it. If we could supply all the documents that are asked for, and if all our correspondents who ask for quotations should buy the documents quoted to them, the sales would be more nearly 5,000 than 1,000 documents a month.

This is a brief outline of the more important branches of the work of this office during the past year. The growth has been rapid in every department, and there is reason to anticipate continued increase, so that to carry on the work efficiently and make the office in even greater measure the public convenience which it has already proved, a more numerous force and enlarged facilities will soon be an obvious necessity.

Since my former report the following depositories have been dropped from the list:

St. John's College Library.....	Fordham, N. Y.
Chamber of Commerce Library.....	Fort Worth, Tex.
Public Library.....	Macon, Ga.
Missouri Military Academy Library.....	Mexico, Mo.
Seminary Library.....	Mount Carroll, Ill.
Ladies' Library Association.....	Port Huron, Mich.

Since my former report the following depositories have been added to the list:

Library of University of New Mexico.....	Albuquerque, N. Mex.
Public Library.....	Asheville, N. C.
Free Public Library.....	Beatrice, Nebr.
Bucyrus Memorial Library.....	Bucyrus, Ohio.
John Crerar Library.....	Chicago, Ill.
Western Reserve Historical Society.....	Cleveland, Ohio.
Eau Claire Public Library.....	Eau Claire, Wis.
Public Library and Reading Room.....	Elizabeth, N. J.
Public Library.....	Fort Wayne, Ind.
Galesburg Public Library.....	Galesburg, Ill.
Library of St. Marys University.....	Galveston, Tex.
Public Library.....	Hudson, Mass.
Stryker Library.....	Lambertville, N. J.
Cossitt Library.....	Memphis, Tenn.
T. B. Scott Free Library.....	Merrill, Wis.
Cornell College Library.....	Mount Vernon, Iowa.
University of the City of New York.....	New York City, N. Y.
Norfolk Public Library.....	Norfolk, Va.
William McCann Library.....	Norristown, Pa.
Claffin Colored Normal, Industrial, Agricultural, and Mechanical College.....	Orangeburg, S. C.
Buies Creek Academy.....	Poes, N. C.
Winthrop Normal and Industrial College Library.....	Rockhill, S. C.
Public Library.....	Rockford, Ill.
Library of the Industrial Institute and College of Louisiana.....	Ruston, La.
Sheldon Jackson College Library.....	Salt Lake City, Utah.
Santa Rosa Free Library.....	Santa Rosa, Cal.
South Omaha Public Library.....	South Omaha, Nebr.
Tabor College Library.....	Tabor, Iowa.
Red River Valley University.....	Wahpeton, N. Dak.
West Point Public Library.....	West Point, Miss.
Alexander Campbell Free Library.....	Wheeler, Ala.

The total number, which last year was 420, is now 445.

Documents have been received and distributed since the date of my former report as follows:

Received from—

Government Printing Office, for distribution to libraries.....	143, 948
Departments.....	154, 554

Very respectfully,

F. A. CRANDALL,
Superintendent of Documents.

Hon. THOS. E. BENEDICT,
Public Printer.

REPORT OF THE CHIEF ENGINEER.

GOVERNMENT PRINTING OFFICE,
Washington, D. C., December 1, 1896.

SIR: Concerning the condition of the steam power and heating plant of the Government Printing Office, I have the honor to make the following report:

The present boiler and steam-power plant has not been altered or added to during the year, and is in good condition. The additions and changes to the steam-heating plant of the office, undertaken in 1895, have been practically completed, and the entire new heating coil system has, with but slight exceptions, been put under low-pressure steam.

Previous to the full installation of the new electric generating plant the maximum capacity of the several engines was as follows: Electric-light engine, 120 horsepower; pressroom engine, 75 horsepower; stereotype-foundry engine, 25 horsepower; machine-shop engine, 10 horsepower; carpenter-shop engine, 10 horsepower; a total, including 80 horsepower (estimated) for elevator pumps and 50 horsepower for various manufacturing purposes, of 370 horsepower in use, exclusive of the steam required for heating purposes, which, prior to the winter of 1895-96, was furnished by live or high-pressure method, the boilers being crowded to their utmost to meet the service.

After the full installation of the new electric-generating plant in dynamo room, the substitution of motors for engines in several of the working divisions, and the use of pumps to supply the new toilet system with water and to return the water of condensation to the boilers, the power load was increased 185 horsepower, as follows: Electric-light engines (maximum indicated), 310 horsepower; press room engines (maximum indicated), 60 horsepower; elevator-pumps engines, 80 horsepower (estimated); pump on closet service, 30 horsepower (estimated); steam for various manufacturing purposes, 50 horsepower; steam for ventilating closets, driving feed pumps, etc., 25 horsepower; making a total of 555 horsepower.

During the winter of 1894-95 the building was inadequately heated by means of the high-pressure system then in use, and the space to be heated was only about 1,959,955 cubic feet. During the fall of the year 1895 the new fifth story over the southwest wing, the paper warehouse on the ground floor, the new roller-casting room, the new stereotype-plate vault, and a connecting corridor between the H-street and southwest wings were also piped for heating, increasing the space to be heated for the winter of 1895-96 to 2,357,442 cubic feet, or 397,487 cubic feet more than the previous winter.

The low-pressure heating system as now in operation is so far completed that the additional demand for 185 horsepower and 397,487 cubic feet of heat is fully met with the same grate surface of boilers heretofore in use, the apparent increase in steaming capacity being due to the more perfect utilization of the waste heat in the exhaust steam throughout the building, and of the waste heat of chimney gases through the boiler economizer. Under the live-steam heating system the water of condensation from the heating coils was allowed to escape into the sewers, and cold water was pumped from the city water mains into the boilers, while the engines in use were, with one exception, of the noncondensing kind. Under the present system with con-

densing engines the water from the heating coils is turned hot through a feed-water heater and economizer; furnishing feed water to the steam boilers at a temperature of from 190° to 270°, thus effecting a great saving.

The new west wing, the new boiler house, and the new machine shop add 647,378 cubic feet of space to be heated during the coming winter, making a total of 3,004,820 cubic feet, or 647,378 cubic feet more than the past winter, and practically 50 per cent more than during the winter of 1894-95. This additional space will be heated by steam from the new boilers now being erected. These consist of internally fired steel boilers, Scotch type, with their attached fuel economizers, the combined heating surface of both boilers and economizers being 7,476 square feet. The grate surface in both boilers is 105 square feet, making a ratio of grate to heating surface as 1 is to 70.9. On the same basis of computation as applied to the old boilers, the new ones will yield 560.7 horsepower, which, added to the rating of the old, gives the steam plant a total available capacity of 980.7 horsepower. The system of steam mains between the new and old boilers is such that steam may be taken from either set of boilers to either one or all of the engines. The new boilers are designed to carry a pressure of 150 pounds per square inch, which will, for the first time since they were put in, enable the compound engines to develop their maximum power and efficiency. The old boilers are 8 and 9 nine years old, respectively, and are not allowed more than 100 pounds pressure per square inch, which will practically limit their work to heating purposes after the new ones are completely installed.

That there has been a considerable saving in the matter of coal is shown as follows: During the fiscal year ending June 30, 1894, 3,671.5 tons were used; the following year, 1895, 3,123.3 tons, and for the year ending June 30, 1896, 3,874.6 tons.

This covers the period during which the three boilers in use have been in service, and shows that while at times during the past year there has been used 185 more horsepower than in previous years, and that nearly 400,000 cubic feet of additional space has been heated, the coal consumption for the fiscal year ended June 30, 1896, was but 203.1 tons more than for the fiscal year ended June 30, 1894, during each of which there was a long session of Congress.

These are very gratifying results when it is remembered that under the old heating system the building was but insufficiently warmed, and that with the new system in operation the building was thoroughly heated during the past winter, the pressrooms particularly being kept continuously at a uniform and comfortable temperature.

Respectfully submitted.

GEORGE E. REID, *Chief Engineer.*

Hon. THOS. E. BENEDICT,
Public Printer.

REPORT OF THE CHIEF ELECTRICIAN.

GOVERNMENT PRINTING OFFICE,
Washington, D. C., December 1, 1896.

SIR: I have the honor to submit the following concerning the electric plant of the Government Printing Office:

LIGHTING.

At this date the entire office is lighted by electricity, while a year ago only a portion of the first and second floors and the foundry were thus lighted. In addition, all of the machinery in the office, with the exception of about twenty printing presses, is being driven by electric motors, and these will soon have electric-motor connections, when the entire machinery plant will be controlled from the dynamo room.

There are at present connected to the electric-lighting mains over 4,200 16-candle-power incandescent lamps. This number will be increased to about 5,000 when the lighting system is fully installed. Prior to the operation of the new electric plant there were but 1,400 16-candlepower incandescent lamps in use.

Gas for lighting is now used only for watch pilot lights during hours when the electric plant is not in operation. From January 1 to November 30 of this year there was used 3,877,300 cubic feet of gas less than during the corresponding months of 1895. During the past eleven months there was used 1,520,700 cubic feet of gas for lighting, and 808,600 cubic feet for manufacturing purposes. The use of gas for manufacturing purposes is necessary, and the introduction of a storage battery or the continuous running of the electric generators would be required for lighting on Sundays and holidays and from midnight until 8 a. m. if its use were entirely discontinued.

Accompanying I submit a diagram (No. 1, page 23) showing the gas consumed during 1896, compared with that consumed in 1895.

Diagram No. 2 (page 24) shows the growth of the electric plant during the past two years. The solid line shows the electrical output, in amperes, on November 12, 1896—a cloudy day—thus accounting for the high lighting load during the daytime. The dotted line shows the output, in amperes, of the old electric plant on November 12, 1894, for lighting only. At that time the office was using no electric power, while the card for November 12, 1896, was nearly one-half motor load. These are main readings and not the highest fluctuations of the load, which frequently during the day was more than 1,800 amperes. This card shows the increase in our electrical output more clearly than would a written description.

The enlargement of the plant is not the only interesting feature. The new plant is much more efficient than the old, both in generators and engines. The efficiency of the new lamps and wiring has largely aided in giving an increased percentage of light without increase in the consumption of coal. To show this completely, I submit a diagram (No. 3, page 25) of the average readings for the first week in November during the years 1893, 1894, and 1896. The readings are for lighting only. During the year 1895 we were putting in our new electric plant; consequently no readings were taken.

This diagram evidences the noticeable fact that the lighting load during November, 1893, and November, 1894, was larger during the daytime, when the office had but 1,200 or 1,400 16-candlepower incandescent lamps in service, than in November, 1896, when there was over 4,000 16-candlepower lamps in service. The economic result is due to the high efficiency of the present system in insulation, lamps, and the high standard of all the lighting apparatus, including the dynamos.

ELECTRIC MOTORS.

Owing to the great variety of machines in the office, the application of electric motors to them presented many problems. How successfully these have been solved is shown by the large number of individual directly connected motors that have been used successfully since they were started. With these motors we are now running large web printing presses, working at a speed of 16,000 impressions an hour, as well as the smallest Gordon; also cutting, indexing, stabbing, folding, case-making, ruling, sewing, and other machines, and signature presses and blowers.

The engines in the foundry, carpenter shop, and machine shop have been disused, and their work is now being done by belted motors.

There are in daily use in the office 117 directly connected and 10 belted motors, varying in size from one-sixth to 30 horsepower, making a total of 383 horsepower in electric motors. Added to this is a 30-horsepower motor used in connection with the Sprague elevator in the new west wing.

The electric power necessary to do all the work of the office at night, including the running of the large web presses on which the Congressional Record is printed, produced less than 20 per cent of the friction load of the pressroom engine and shafting. This item alone shows how great have been the economic gains of electrical transmission of power over the old shaft and belt system.

With the introduction of motors and the necessity of having them operated by persons, many of whom are women, wholly without experience in handling such apparatus, it became absolutely necessary to adopt some method of control and protection against carelessness and ignorance. This has been done by fitting every motor with automatic circuit breakers. During the entire year not an armature has been burned out (save one belonging to a motor put in on trial) or a field coil given out on one of the motors.

I submit herewith a tabulated report (page 26) showing the daily operations of the electric plant during the month of October, 1896, and the relative amount of current used for lighting and power. The output for that month is an average monthly record when Congress is not in session, during which period there is an increase of about 50 per cent.

ECONOMY OF USE OF ELECTRICITY.

The cost of electrical production for the month of October was 3½ cents per kilowatt hour. This includes cost of help in dynamo and engine room and the boiler house; also coal, oil, waste, and necessary incidentals. This very low cost of power shows for itself how economically our present electric plant is being operated.

The cost for maintenance and repairs necessary to the lighting and power branches of the electric plant will be very small indeed if the present indications can be taken as a criterion from which to make conservative estimates. Records of these items are now being compiled, and a full report will be submitted when they are sufficiently advanced to give reliable figures.

Respectfully submitted.

W. H. TAPLEY, *Chief Electrician.*

Hon. THOS. E. BENEDICT,
Public Printer.

DIAGRAM I.--Record of gas consumed by the Government Printing Office from January 1 to November 30, 1895 and 1896.

[Solid line shows amount of gas consumed in 1895. Dotted line shows amount consumed in 1896.]

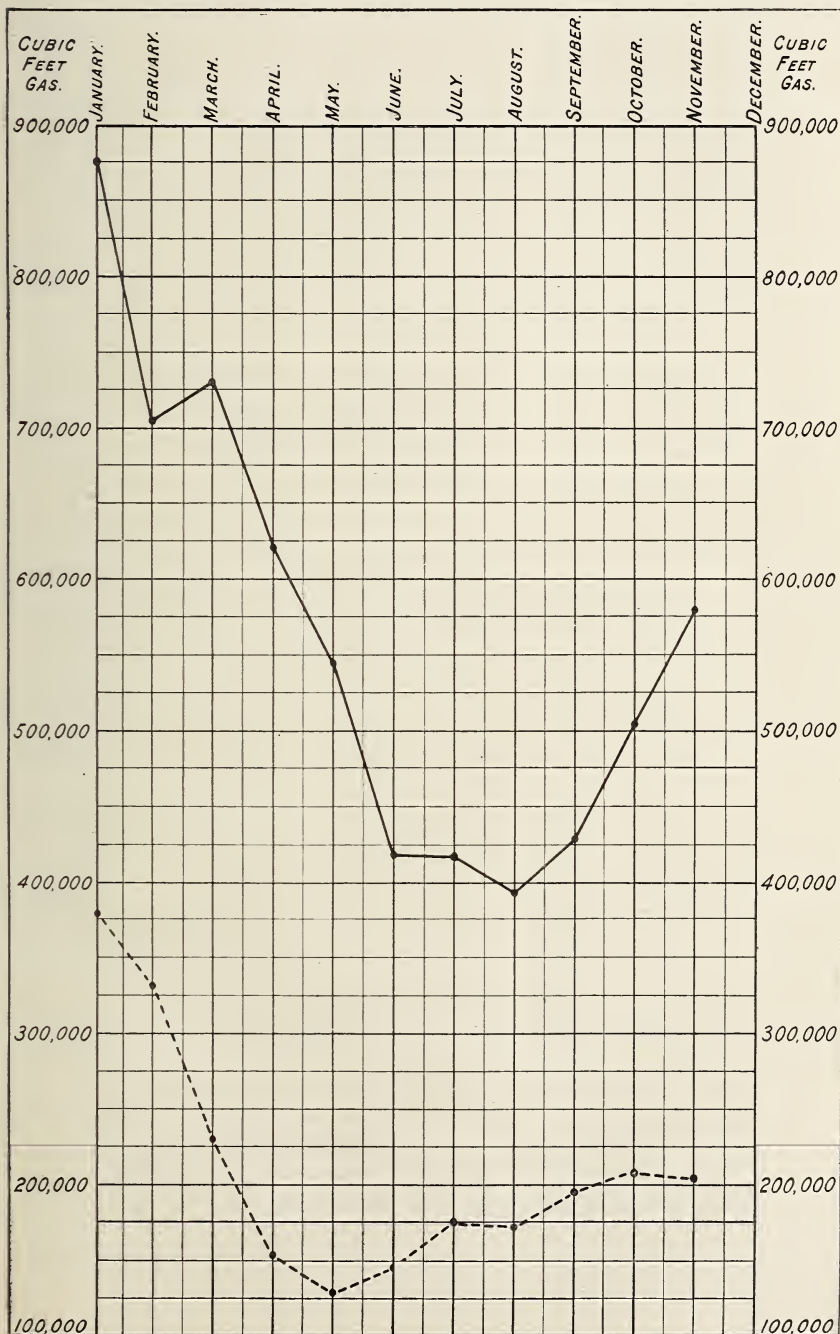

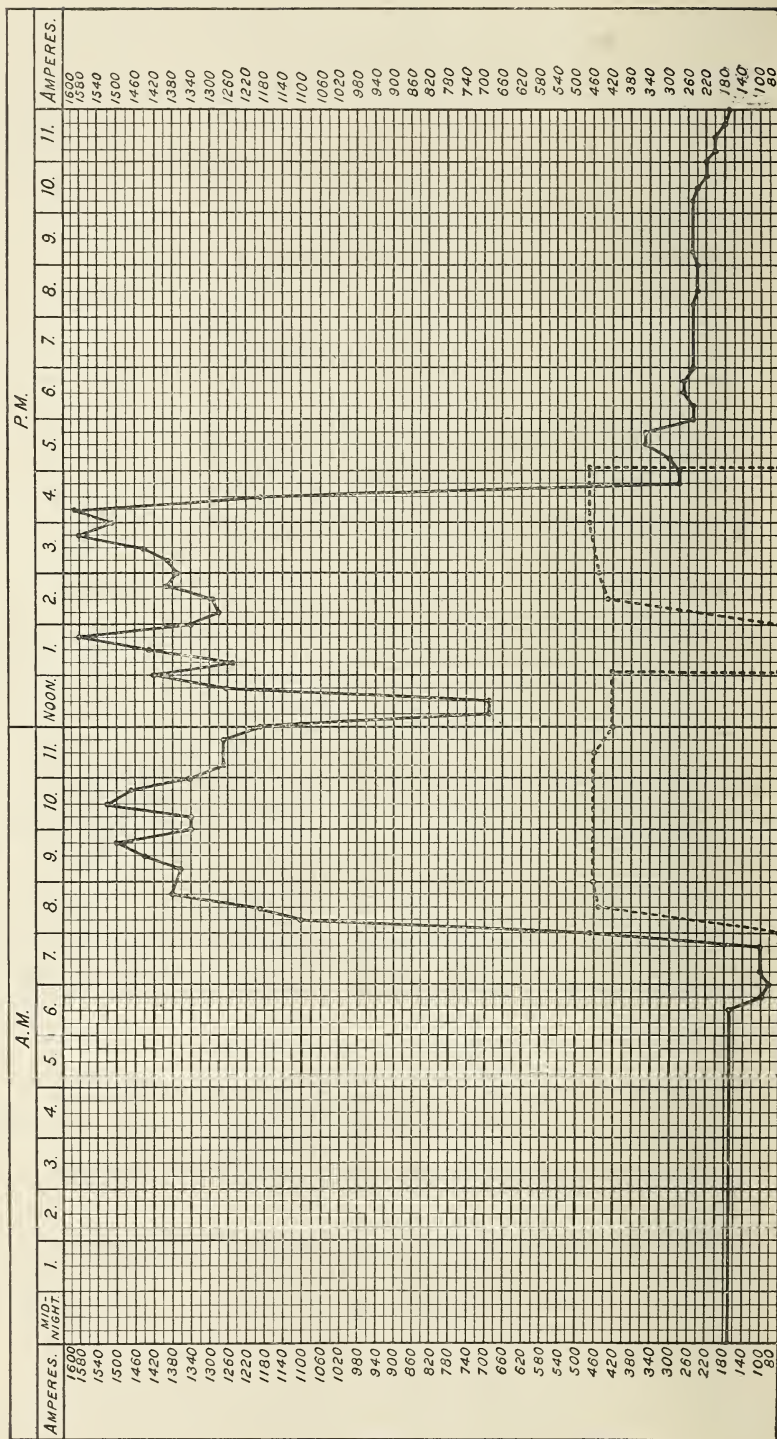

DIAGRAM 2.—Record of output of Government Printing Office electric plant for November 12, 1894, and November 12, 1896.

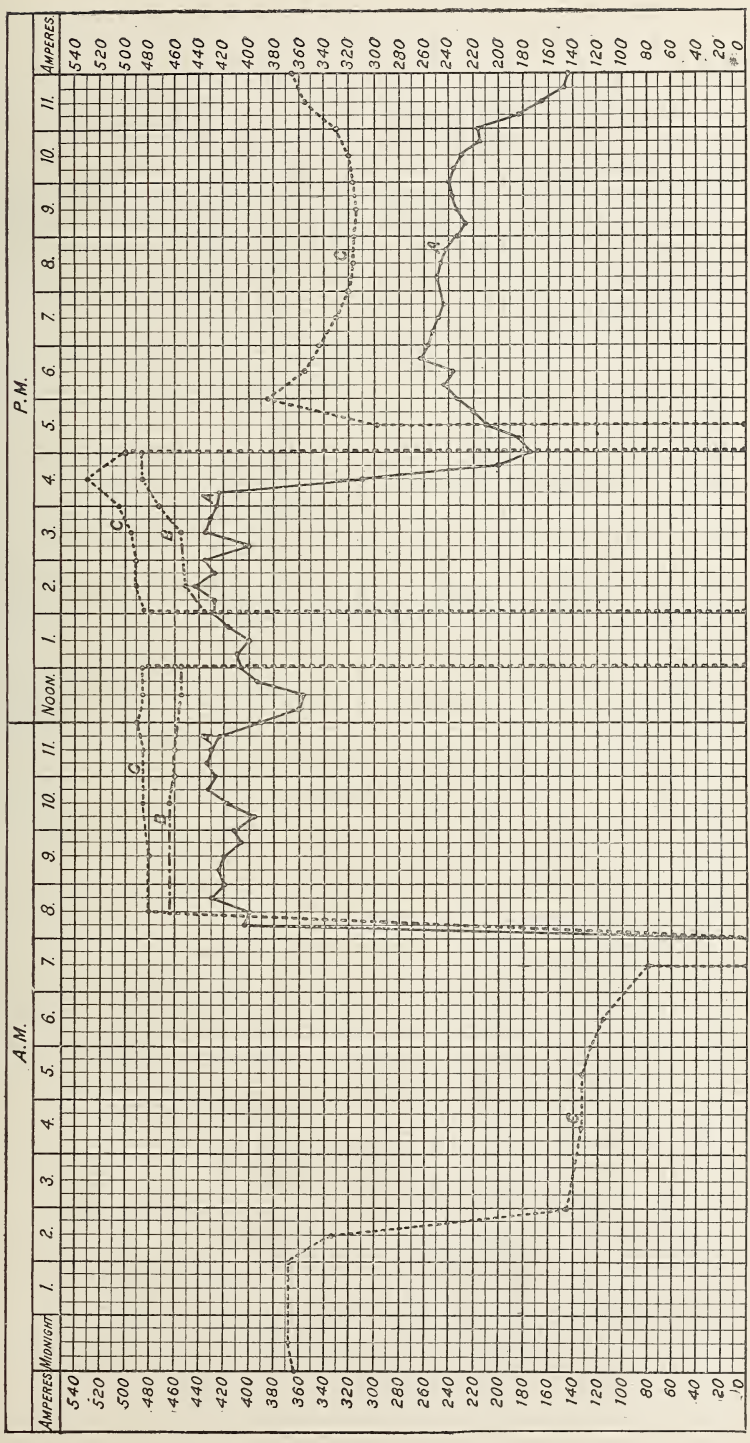

[Dotted line shows ampere readings for November 12, 1894; machine in service, Armington & Sims engine; weather, clear. Solid line shows ampere readings for November 12, 1896; machine in service, compound and Westinghouse engines; weather, cloudy.]

NOTE.—Voltage: November 12, 1894, 110; November 12, 1896, 110. Total ampere hours: November 12, 1894, 3,625; November 12, 1896, 14,330. Total watt hours: November 12, 1894, 398,750; November 12, 1896, 1,576,300.

DIAGRAM 3.—Average record of lighting output of Government Printing Office electric plant for weeks of November 6-11, 1893, November 5-10, 1894, and November 2-7, 1896.

[Solid line (A), November 2-7, 1896; machine in service, Westinghouse engine. Dot-dash line (B), November 5-10, 1894; machine in service, Armington & Sims engine. Dotted line (C), November 6-11, 1893; machine in service, Armington & Sims engine.]

NOTE.—Voltage : November 6-11, 1893, 110; November 5-10, 1894, 110; November 2-7, 1896, 110. Total ampere hours : November 6-11, 1893, 44,365; November 5-10, 1894, 21,765; November 2-7, 1896, 39,985.5. Total watt hours : November 6-11, 1893, 4,880,150; November 5-10, 1894, 2,394,150; November 2-7, 1896, 3,408,405.

No. 5.—*Statement showing moneys received by the Public Printer during the fiscal year ended June 30, 1896, the sources from which received, and to what accounts deposited.*

Deposited to credit of appropriations for public printing and binding:

Printing for Navy Department	\$12, 971. 30
Printing for Commissioners of the District of Columbia	2, 570. 22
Printing for Smithsonian Institution	171. 28
Binding Rebellion Records	150. 00
Printing for Department of Justice	104. 91
Printing for Post-Office Department	28. 31
Printing for War Department	27. 00
Printing for Industrial Home School, District of Columbia	11. 75
Electrotyping for United States Fish Commission	10. 00
Printing for Commissioner of Freedman's Savings and Trust Company	6. 05
Electrotyping for United States Geological Survey	5. 00
Printing for office of building for Library of Congress	4. 41
Binding for Bureau of American Ethnology	3. 60
Total	16, 063. 83

Deposited to credit of receipts from miscellaneous sources:

Sales of extra documents	\$5, 525. 64
Sales of waste paper	13, 499. 12
Sales of Congressional Directory	327. 08
Sales of Congressional Record	2, 998. 85
Printing speeches	15, 547. 47
Printing speech envelopes	33. 00
Proceeds of waste gold leaf	5, 077. 54
Sales of leather scraps	2, 244. 67
Sales of stereotype dress	1, 159. 64
Sales of scrap iron	695. 49
Sales of condemned machinery	9, 713. 30
Sales of old packing boxes	306. 59
Sales of condemned type	1, 664. 90
Sales of old type metal	4, 826. 50
Sales of old belting	201. 35
Sales of sundry condemned articles	53. 24

63, 874. 38

Total

79, 938. 21

Estimates of appropriations for public printing and binding for the fiscal year ending June 30, 1898, as submitted to the Secretary of the Treasury for presentation to the second session of the Fifty-fourth Congress.

Wages.....	\$2,409,272.17
Materials.....	367,240.00
Paper.....	509,573.75
Branch offices.....	201,100.00
Lithographing and engraving.....	80,000.00
Total.....	3,567,185.92

No. 6.—*Statement showing the disbursement on account of salaries and contingent expenses in the office of the Public Printer during the fiscal year ended June 30, 1896.*

Public Printer.....	\$4,500.00
Chief clerk.....	2,400.00
Two clerks, at \$1,800 each per annum.....	3,600.00
Two clerks, at \$1,600 each per annum.....	3,200.00
One clerk.....	1,400.00
	15,100.00
Contingent expenses of the office.....	2,955.08
Total.....	18,055.08

No. 7.—*Statement showing the disbursements on account of public printing and binding during the fiscal year ended June 30, 1896.*

Wages.....	\$2,326,901.60
Improvements and repairs to building:	
Repairs to roof.....	487.18
Raising roof of boiler house.....	390.00
Plumbing and gas-fitting supplies.....	4,601.70
Electric supplies.....	13,715.63
Lumber.....	7,221.28
Hardware.....	350.00
Paint, etc.....	702.38
Glass, putty, etc.....	145.38
Material for and constructing new water-closets.....	13,907.37
Fitting up new wash room basins.....	1,188.27
Plans and specifications for new water-closets and wash rooms.....	2,435.60
Galvanized-iron air flues.....	553.53
Covering steam pipes with asbestos.....	2,472.70
Floor tiling.....	1,367.50
Erecting iron stairways.....	365.62
Erecting gallery around engine.....	575.00
Platform and stairway for compound engine.....	400.00
Iron spiral stairway.....	121.00
Covering ceiling of bindery with muslin.....	398.28
Erecting partition on fifth floor.....	137.00
820 coils of steam pipe.....	3,895.00
Steam fixtures.....	90.00
2 water tanks.....	431.63
Fire-alarm box.....	125.00
Iron, steel, etc.....	601.47
Iron columns, beams, and tie-rods.....	672.92
Beam clamps.....	126.00
Beam clips.....	137.50
Window awnings and shades.....	238.28
Nails.....	172.30
Screws.....	365.76
Lime.....	28.95
Cement.....	899.71
Brick.....	941.03

Fire brick	\$55.00
Fire clay	16.25
Sand	199.45
Gravel	3.90
Oyster shells	43.20
Stone	128.40
Locks, hinges, etc	105.95
Brickwork	31.00
Zinc	106.30
Sash cord	11.38
Paving	130.77
Window sashes	288.85
Skylights	126.00
Hoods and pipes for stereotype furnace	88.00
Shelving and bins	70.68
Repairs to cold-air pipes, spouting, etc	55.00
Scraping and painting smokestack	49.50
Labor on metal kettles	30.75
Constructing manhole	24.97
Angle irons	10.75
Angle-iron brackets	42.00
Door checks	90.00
Floor registers	11.00
Changing location of gas meters	14.65
Gongs	10.50
Miscellaneous	393.23

Machinery, tools, and implements:

Printing presses:

1 web perfecting	\$23,000.00
11 No. 2 Huber	41,550.00
8 Whitlock, bed 29 by 42 inches	17,200.00
1 Whitlock, bed 37 by 52 inches	3,100.00
1 No. 5 Washington hand	200.00
1 job proof	68.00

1 engine, generator, etc	85.118.00
82 electric motors	18,596.00
1 electric switchboard	11,184.05
1 electric switchboard	6,200.00
4 No. 3 Smyth book-sewing machines	4,800.00
1 quadruple folding machine, with automatic pointer and economic feeder	3,550.00
1 hydraulic freight elevator	2,350.00
1 fuel economizer and stack	1,272.00
43 cabinets	2,308.39
18 electric controllers	1,654.55
381 valves	1,641.27
3 Hickok ruling machines	1,620.00
Shafting, couplings, hangers, pulleys, etc	1,197.43
Gear wheels and pinions	1,168.67
40 $\frac{1}{2}$ -horsepower worm-reducing motions	1,038.40
9 finisher's tables	1,003.00
11 armatures for electric motors	918.96
2,400 patent side sticks	900.00
12 iron side and foot sticks	14.96
1 No. 5 embossing machine	950.00
2 double-head wire stitching machines	900.00
1 combined slotter and drill	770.00
2 Simple book-trimming machines	748.00
1 feed-water heater	713.00
Fixtures to presses	653.15
400 electric switches	633.34
1 36-inch pipe-cutting machine	630.00
Fixtures for stitching machines	620.37
2 pipe machines	655.50
1 black-leading machine	500.00
1 planing machine	480.00
276 stereotype blocks	493.50
Repairing 64 stereotype blocks	37.70

2 shaving machines	\$480.00
1 No. 4 combined pump and governor	460.00
1 29-inch roller backing machine	425.00
1 21-inch roller backing machine	425.00
5 catalogue cases, with figures.....	401.48
1 registering accountant	375.00
3 electrotype furnaces.....	365.50
6 case-smoothing machines.....	351.00
12 electric fans	282.00
Fixtures to book-sewing machines	251.66
1 reversible book-sewing machine.....	250.00
200 3-inch iron roll-paper cores	240.00
2,500 clips.....	215.00
2 exhausts and 1 blower.....	211.20
1 power stabbing machine.....	200.00
5,000 blocks for storing curved electrotype plates.....	200.00
4 standing presses	180.00
2 15-foot hoists.....	176.25
Fixtures for book-trimming machines	165.25
2 6-disk heads for numbering machine.....	160.00
1 imposing table with iron top.....	144.50
Changing line shaft in engine room.....	140.00
1 wax-shaving machine.....	136.00
1 universal index cabinet	130.00
4 heads for boring bar gears.....	126.50
1 pair 2-inch drum indicators	125.00
1 30-inch No. 60 gauge die	125.00
1 perforating machine	125.00
Repairing perforating machine.....	33.00
1 Universal scroll saw.....	120.00
4 crank-shaft counterweights.....	120.00
Repairs to beveling machine.....	117.50
12 steam glue jackets.....	114.90
1 plate-iron hot well tank.....	112.40
5 electric speed regulators	112.00
3 make-up banks.....	150.00
Taking down and moving engine	105.00
12 lettering pallets	102.00
Repairs to boilers	111.63
3 automatic dating and numbering machines.....	100.00
Fixtures for roller backing machine	95.87
152 twist drills.....	90.23
Repairs to bicycles.....	89.90
76 pairs plyers	89.79
1 valve resetting outfit	86.00
2 type bins.....	80.00
1 Universal trimmer	76.00
3 platform scales	74.50
1 stock table and form rack.....	67.00
1 special sort cabinet.....	65.00
3 chain hoists	60.00
1 steam chest	60.00
4 hand numbering machines.....	59.00
1 glue heater	58.50
Bookbinder's finishing tools.....	58.25
1 resistance and circuit breaker	57.50
1 slug rack.....	56.00
Bolt dies, taps, sockets, and grip chuck	56.00
2 wheel guards	55.00
Repairs to engine	52.60
Putting on and making belts endless.....	51.59
1 imposing stone	50.00
Taking up slack in 37-inch belt.....	48.69
8 electric soldering irons.....	48.00
1 line board	46.00
1 heater over boiler	45.00
3 index cutters	45.00

1 ring rack	\$45.00
3 tanks	44.00
12 painter's trestles	43.20
72 1-quart benzine cans	43.20
6 2-gallon benzine cans	5.00
1 case rack	43.00
1 frame for stone and form rack	41.00
3 steel finishing plates	40.50
Erecting 2 telephones	40.00
Dressing 10 imposing stones	40.00
Fixtures for hydraulic pumps	40.00
22 stepladders	39.53
6 wheelbarrows	39.50
1 file case	38.00
48 drip pans	36.75
1 copy desk	35.00
1 galley rack	35.00
Fixtures for lead-trimming machine	35.00
3 shoot boards and planers	34.43
7 4-inch collars for rotary board cutter	32.21
2 tables for type cases	30.00
1 Little Giant rule cutter	30.00
Repairs to smashing machine	30.50
1 Bailey's copying press, with pads, etc	29.65
Fixtures to ruling machines	28.32
Repairs to perforating machine	28.00
18 sewing benches	27.00
2 drill chucks	25.50
4 chains for elevators	24.00
3 pairs chain tongs	24.00
1 anvil	22.50
Fitting 1 set of knives to rotary board cutter	21.00
4 galvanized-iron boxes	20.00
2 steam-pressure gauges	18.36
1 press table, with stone, shelves, etc	18.00
12 serrated cutters	18.00
25 joint rods	16.87
7,120 brass label holders	261.30
370 mica fronts for label holders	7.67
18 watering pots	16.10
3 ratchets	16.00
2 plungers and sleeves for pump	15.50
2 stoves	15.30
1 wire rack	15.00
2 steel squares	14.25
3 tapelines	12.25
12 filter tubes	12.00
2 dozen soldering irons	11.40
14 shovels	11.11
1 dozen scoop shovels	11.00
Fixtures for stabbing machine	11.00
1 nozzle for economizer	10.75
2 sets jaws for drill chucks	10.00
1 marbler's comb	10.00
12 hand bellows	9.97
10 dozen bowls	9.60
9 sets case steps	9.00
Fixtures for folding machine	9.00
2 pipe vises	8.25
Fixtures for steam gauges	8.25
2 tube scrapers	7.69
1 pair Brock tongs	7.20
2 soldering torches	7.00
2 flue cleaners	7.00
16 taps	6.45
1 pair 6-inch nippers	6.00
4 giant nail pullers	6.00

2 gas stoves		\$5. 70
84 mop handles.....		5. 70
51 gauge pins.....		5. 40
14 augur bits.....		5. 09
1 60-gallon oil tank.....		5. 00
1 60-gallon galvanized-iron tank.....		5. 00
1 oval slide vise.....		5. 00
1 force pump		4. 75
1 copper boiler		4. 50

John Campbell & Co., New York, N. Y.	do.	.27
H. Griffin & Sons, New York, N. Y.	do.	.29
Boston Thread and Twine Company, Boston, Mass.	do.	.26

Item 277, tinned wire for sewing machines, No. 23 :

Washburn & Moen Manufacturing Company, Worcester, Mass	per pound..	\$0.09
T. W. & C. B. Sheridan, New York, N. Y.	do0825
Russell Fraser, New York, N. Y.	do085
Geo. W. Prentiss & Co., Holyoke, Mass.	do08

Item 278, tinned wire for sewing machines, No. 24 :

Washburn & Moen Manufacturing Company, Worcester, Mass	do093
T. W. & C. B. Sheridan, New York, N. Y.	do085
Russell Fraser, New York, N. Y.	do085
Geo. W. Prentiss & Co., Holyoke, Mass.	do085

Item 279, round wire for stitching machines, No. 22 :

Washburn & Moen Manufacturing Company, Worcester, Mass	do075
T. W. & C. B. Sheridan, New York, N. Y.	do08
Russell Fraser, New York, N. Y.	do085
Geo. W. Prentiss & Co., Holyoke, Mass.	do065
Barnhart Brothers & Spindler, Chicago, Ill.	do09

Item 280, round wire for stitching machines, No. 24 :

Washburn & Moen Manufacturing Company, Worcester, Mass	do078
T. W. & C. B. Sheridan, New York, N. Y.	do085
Russell Fraser, New York, N. Y.	do085
Geo. W. Prentiss & Co., Holyoke, Mass.	do07
Barnhart Brothers & Spindler, Chicago, Ill.	do095

Item 281, flat wire for stitching machines, No. 20 by 23 :

Washburn & Moen Manufacturing Company, Worcester, Mass	do08
T. W. & C. B. Sheridan, New York, N. Y.	do10
Russell Fraser, New York, N. Y.	do105
Geo. W. Prentiss & Co., Holyoke, Mass.	do09
Barnhart Brothers & Spindler, Chicago, Ill.	do12

Item 282, stereotype metal :

Columbia Smelting and Refining Works, New York, N. Y.	do06
Lewis Hopfenmaier, Washington, D. C.	do06

B. Lowenstein & Bro., New York, N. Y.—

Sample A	do068
Sample B	do062
Sample C	do052

Merchant & Co., Incorporated, Philadelphia, Pa.—

Sample No. 1	do065
Sample No. 2	do0575
Sample No. 3	do055

G. D. Mackey, New York, N. Y.—

Sample No. 1	do08
Sample No. 2	do066

M. Lissberger, New York, N. Y.—

Sample No. 1	do061
Sample No. 2	do051
Sample No. 3	do043
Barnhart Brothers & Spindler, Chicago, Ill.	do075

Item 283, lead :

Lewis Hopfenmaier, Washington, D. C.	do035
B. Lowenstein & Bro., New York, N. Y.	do035
G. D. Mackey, New York, N. Y.	do038
M. Lissberger, New York, N. Y.	do034

Item 284, bar tin :

Lewis Hopfenmaier, Washington, D. C.	do157
B. Lowenstein & Bro., New York, N. Y.	do158
G. D. Mackey, New York, N. Y.	do155
M. Lissberger, New York, N. Y.	do148

Item 285, antimony and tin :

Lewis Hopfenmaier, Washington, D. C.	do13
B. Lowenstein & Bro., New York, N. Y.	do129
G. D. Mackey, New York, N. Y.	do125
M. Lissberger, New York, N. Y.	do114

Item 286, tin foil :

B. Lowenstein & Bro., New York, N. Y.	do173
G. D. Mackey, New York, N. Y.	do175
M. Lissberger, New York, N. Y.	do156

Item 287, copper battery plates:

B. Lowenstein & Bro., New York, N. Y.	per pound.	\$o. 134
Merchant & Co., Incorporated, Philadelphia, Pa.	do.	.1225
G. D. Mackey, New York, N. Y.	do.	.135
M. Lissberger, New York, N. Y.	do.	.123

Item 288, sifted cast-iron filings:

B. Lowenstein & Bro., New York, N. Y.	do.	.034
G. D. Mackey, New York, N. Y.	do.	.021
M. Lissberger, New York, N. Y.	do.	.018

Item 289, sulphate of copper:

B. Lowenstein & Bro., New York, N. Y.—		
Sample A.	do.	.051
Sample B.	do.	.049
Shoemaker & Busch, Philadelphia, Pa.	do.	.039
Mackall Brothers & Flemer, Washington, D. C.	do.	.044
Z. D. Gilman, Washington, D. C.	do.	.0425

Item 290, calcined plaster of paris:

D. Connell, Washington, D. C.	per barrel.	1. 80
Shoemaker & Busch, Philadelphia, Pa.	do.	2. 24
Hugh Reilly, Washington, D. C.	do.	1. 65

Item 291, blocking board:

G. D. Mackey, New York, N. Y.	per foot.	. 15
P. E. Cowman, Boston, Mass.	do.	. 15

Item 292, stereotype backing paper, 19 by 24 inches, 40 pounds:

G. D. Mackey, New York, N. Y.	per ream.	4. 20
Wm. A. Wheeler, jr., New York, N. Y.	do.	4. 40
B. & O. Myers, New York, N. Y.	do.	3. 80

Item 293, stereotype backing paper, 19 by 24 inches, 50 pounds:

G. D. Mackey, New York, N. Y.	do.	5. 30
Wm. A. Wheeler, jr., New York, N. Y.	do.	5. 50
B. & O. Myers, New York, N. Y.	do.	4. 75

Item 294, stereotype backing paper, 19 by 24 inches, 60 pounds:

G. D. Mackey, New York, N. Y.	do.	6. 40
Wm. A. Wheeler, jr., New York, N. Y.	do.	6. 60
B. & O. Myers, New York, N. Y.	do.	5. 70

Item 295, white tissue paper, No. 1, 19 by 24 inches:

G. D. Mackey, New York, N. Y.	do.	1. 30
Wm. A. Wheeler, jr., New York, N. Y.	do.	1. 15
B. & O. Myers, New York, N. Y.	do.	1. 28

Item 296, extra cream tissue paper, No. 1, 19 by 24 inches:

G. D. Mackey, New York, N. Y.	do.	1. 70
Wm. A. Wheeler, jr., New York, N. Y.	do.	1. 65
B. & O. Myers, New York, N. Y.	do.	1. 68

Item 297, sulphuric acid:

Shoemaker & Busch, Philadelphia, Pa.	per carboy.	3. 00
Charles H. Pleasants, New York, N. Y.	do.	3. 72
Mackall Brothers & Flemer, Washington, D. C.	do.	3. 55
Z. D. Gilman, Washington, D. C.	do.	3. 12

Item 298, muriatic acid:

Shoemaker & Busch, Philadelphia, Pa.	do.	2. 50
Hugh Reilly, Washington, D. C.	do.	3. 25
Charles H. Pleasants, New York, N. Y.	do.	3. 47
Mackall Brothers & Flemer, Washington, D. C.	do.	2. 99
Z. D. Gilman, Washington, D. C.	do.	3. 00

Item 299, plumbago:

Jos. Dixon Crucible Company, Jersey City, N. J.	per pound.	. 306
Ilsley, Doubleday & Co., New York, N. Y.	do.	. 25

Item 300, stereotype backing powder:

J. Fremont Frey, Indianapolis, Ind.	do.	. 06
Young & Co., New Haven, Conn.	do.	. 04

Item 301, glue:

Harry M. Schneider, Washington, D. C.	do.	.111

Z. D. Gilman, Washington, D. C.	do.	1. 80
Slade, Hipp & Meloy, Chicago, Ill.	do.	2. 50

Item 323, powdered borax:

Geo. F. Muth & Co., Washington, D. C.	do.	. 073
Shoemaker & Busch, Philadelphia, Pa.	do.	. 069
Charles H. Pleasants, New York, N. Y.	do.	. 10
J. C. Ergood & Co., Washington, D. C.	do.	. 09
Mackall Brothers & Flemer, Washington, D. C.	do.	. 074
Z. D. Gilman, Washington, D. C.	do.	. 08

Item 324, pulverized alum:

Geo. F. Muth & Co., Washington, D. C.	do.	. 022
Shoemaker & Busch, Philadelphia, Pa.	do.	. 034

Item 324, pulverized alum—Continued.

The Manhattan Supply Company, New York, N. Y.	per pound.	\$0.037
Smith, Kline & French Company, Philadelphia, Pa.	do.	.035
Charles H. Pleasants, New York, N. Y.	do.	.045
J. C. Ergood & Co., Washington, D. C.	do.	.05
Mackall Brothers & Flemer, Washington, D. C.—		
Ground	do.	.023
Powdered	do.	.034
Z. D. Gilman, Washington, D. C.	do.	.025

Item 325, oxalic acid:

Shoemaker & Busch, Philadelphia, Pa.	do.	.079
Smith, Kline & French Company, Philadelphia, Pa.	do.	.09
Charles H. Pleasants, New York, N. Y.	do.	.0825
Mackall Brothers & Flemer, Washington, D. C.	do.	.079
Z. D. Gilman, Washington, D. C.	do.	.09

Item 326, creosote:

Shoemaker & Busch, Philadelphia, Pa.	do.	.369
Smith, Kline & French Company, Philadelphia, Pa.	do.	.80
Charles H. Pleasants, New York, N. Y.	do.	.99
Z. D. Gilman, Washington, D. C.	do.	.36

Item 327, stronger water ammonia:

Shoemaker & Busch, Philadelphia, Pa.	do.	.084
Mackall Brothers & Flemer, Washington, D. C.	do.	.075
Z. D. Gilman, Washington, D. C.	do.	.09

Item 328, guards for patent backs:

Altemus & Co., Philadelphia, Pa.	per guard	.009
----------------------------------	-----------	------

Item 329, backs for money-order guard books:

Gustav A. Schurmann, New York, N. Y.	per back	.70
--------------------------------------	----------	-----

Item 330, canvas for covering blank books:

W. D. Clark & Co., Washington, D. C.—		
Sample A	per yard	.205
Sample B	do.	.245
Sample C	do.	.26
Sample D	do.	.275
Thomas G. Hood, Philadelphia, Pa.—		
Sample No. 1	do.	.21
Sample No. 2	do.	.236
Sample No. 3	do.	.275

Item 331, gray super:

Louis Dejonge & Co., New York, N. Y.	do.	.024
J. F. Travis's Sons, New York, N. Y.—		
Sample No. 1	do.	.025
Sample No. 2	do.	.0275
Sample No. 3	do.	.035
H. Griffin & Sons, New York, N. Y.	do.	.0275

Item 332, tablet composition:

Bingham Brothers Company, New York, N. Y.	per pound	.20
American Type Founders' Company (Marder, Luce & Co. Branch), Chicago, Ill.	do.	.25
Samuel Bingham's Manufacturing Company, Chicago, Ill.	do.	.25
H. Griffin & Sons, New York, N. Y.	do.	.22
Layton Elastic Glue Company, Chicago, Ill.	do.	.125
Slade, Hipp & Meloy, Chicago, Ill.	do.	.20

Item 333, parchment substitute, $\frac{3}{8}$ -inch:

H. Griffin & Sons, New York, N. Y.	per piece	.60
------------------------------------	-----------	-----

Item 334, bookbinding band, $\frac{3}{8}$ -inch:

H. Griffin & Sons, New York, N. Y.	do.	.43
------------------------------------	-----	-----

Item 335, good family flour:

John B. Daish, Washington, D. C.	per barrel	3.29
W. M. Galt & Co, Washinton, D. C.	do.	2.85
W. H. Tenney & Sons, Washington, D. C.—		
Sample A	do.	3.00
Sample B	do.	4.00
J. C. Ergood & Co., Washington, D. C.	do.	3.45
B. B. Earnshaw & Bro., Washington, D. C.	do.	3.60

Item 336, white wine vinegar:

D. Connell, Washington, D. C.	per gallon	.09
John B. Daish, Washington, D. C.	do.	.094
Charles H. Pleasants, New York, N. Y.	do.	.14
J. C. Ergood & Co., Washington, D. C.	do.	.10

No. 29.—*Statement of proposals received for lithographing and engraving during the fiscal year ended June 30, 1896.*

SCHEDULE OF PROPOSALS FOR ENGRAVING 5 RELIEF-PLATE ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

The Maurice Joyce Engraving Company, Washington, D. C.	\$9.36
Albany Engraving Company, Albany, N. Y.	10.87
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.	10.90
New York Engraving and Printing Company, New York, N. Y.	14.00
Photo-Engraving Company, New York, N. Y.	15.00

SCHEDULE OF PROPOSALS FOR ENGRAVING 4 RELIEF-PLATE ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Philadelphia Photo-Electrotype Company, Philadelphia, Pa.	\$5.00
Albany Engraving Company, Albany, N. Y.	6.06
The Maurice Joyce Engraving Company, Washington, D. C.	6.50
New York Engraving and Printing Company, New York, N. Y.	8.00
Photo-Engraving Company, New York, N. Y.	8.50

SCHEDULE OF PROPOSALS FOR REPRODUCING 19 ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Item 1, photolithographing and printing 14,750 copies of 1 illustration:	
A. Hoen & Co., Baltimore, Md.	\$117.00
Item 2, engraving 18 relief-plate illustrations:	
The Maurice Joyce Engraving Company, Washington, D. C.	20.55
Photo-Engraving Company, New York, N. Y.	31.00

SCHEDULE OF PROPOSALS FOR REPRODUCING 100 ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Item 1, chromolithographing and printing 14,750 copies each of 12 illustrations:	
Julius Bien & Co., New York, N. Y.	\$1,770.00
A. Hoen & Co., Baltimore, Md.	1,680.00
Item 2, engraving 30 illustrations by half-tone process:	
New York Engraving and Printing Company, New York, N. Y.	109.50
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.	144.00
Photo-Engraving Company, New York, N. Y.	149.00
The Maurice Joyce Engraving Company, Washington, D. C.	157.95
The F. Gutekunst Company, Philadelphia, Pa.	165.20
Item 3, photoengraving 58 illustrations:	
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.	24.00
The Maurice Joyce Engraving Company, Washington, D. C.	32.52
New York Engraving and Printing Company, New York, N. Y.	42.50
Photo-Engraving Company, New York, N. Y.	43.50
The F. Gutekunst Company, Philadelphia, Pa.	66.30

SCHEDULE OF PROPOSALS FOR ENGRAVING 822 RELIEF-PLATE ILLUSTRATIONS FOR REPORT OF SMITHSONIAN INSTITUTION FOR 1894, PART 2.

New York Engraving and Printing Company, New York, N. Y.	\$248.09
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.	400.00
Albany Engraving Company, Albany, N. Y.	402.90
The Maurice Joyce Engraving Company, Washington, D. C.	408.64
Photo-Engraving Company, Washington, D. C.	437.80
The F. Gutekunst Company, Philadelphia, Pa.	856.46

SCHEDULE OF PROPOSALS FOR REPRODUCING 120 ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 1.

Item 1, chromolithographing and printing 14,750 copies each of 7 illustrations:	
A. Hoen & Co., Baltimore, Md.	\$1,437.00
Julius Bien & Co., New York, N. Y.	1,855.00
Item 2, engraving 33 illustrations by half-tone process:	
New York Engraving and Printing Company, New York, N. Y.	144.00
The Maurice Joyce Engraving Company, Washington, D. C.	155.00
Photo-Engraving Company, New York, N. Y.	173.00

Item 3, photoengraving 80 illustrations :

The Maurice Joyce Engraving Company, Washington, D. C.....	\$35.88
Photo-Engraving Company, New York, N. Y.....	69.55
New York Engraving and Printing Company, New York, N. Y.....	82.00

SCHEDULE OF PROPOSALS FOR REPRODUCING 224 ILLUSTRATIONS FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE BUREAU OF ETHNOLOGY.

Item 1, lithographing and printing 9,800 copies each of 12 illustrations :

Julius Bien & Co., New York, N. Y.....	\$1,299.00
The Giles Company, New York, N. Y.....	1,437.00
A. Hoen & Co., Baltimore, Md.....	1,500.00
J. Ottmann Lithographing Company, New York, N. Y.....	2,043.00

Item 2, engraving 118 illustrations by half-tone process :

Binner Engraving Company, Chicago, Ill.....	380.00
Moss Engraving Company, New York, N. Y.....	450.00
The Maurice Joyce Engraving Company, Washington, D. C.....	463.02
The F. Gutekunst Company, Philadelphia, Pa.....	479.50
New York Engraving and Printing Company, New York, N. Y.....	508.00
Photo-Engraving Company, New York, N. Y.....	512.40
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.....	515.00

Item 3, photoengraving 94 illustrations :

Binner Engraving Company, Chicago, Ill.....	60.00
The Maurice Joyce Engraving Company, Washington, D. C.....	60.80
Photo-Engraving Company, New York, N. Y.....	71.39
Moss Engraving Company, New York, N. Y.....	85.00
New York Engraving and Printing Company, New York, N. Y.....	90.00
Philadelphia Photo-Electrotype Company, Philadelphia, Pa.....	92.75
The F. Gutekunst Company, Philadelphia, Pa.....	103.44

SCHEDULE OF PROPOSALS FOR REPRODUCING 16 ILLUSTRATIONS FOR BULLETIN OF UNITED STATES FISH COMMISSION FOR 1895.

Item 1, photolithographing and printing 6,794 copies of 1 illustration :

The Norris Peters Company, Washington, D. C.....	\$135.00
J. Ottmann Lithographing Company, New York, N. Y.....	291.00
A. Hoen & Co., Baltimore, Md.....	230.00

Item 2, engraving 15 relief-plate illustrations :

The Maurice Joyce Engraving Company, Washington, D. C.....	66.12
--	-------

SCHEDULE OF PROPOSALS FOR CHROMOLITHOGRAPHING AND PRINTING 14,750 COPIES OF 1 ILLUSTRATION FOR SIXTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Julius Bien & Co., New York, N. Y.....	\$259.00
A. Hoen & Co., Baltimore, Md.....	570.00
J. Ottmann Lithographing Company, New York, N. Y.....	670.00

SCHEDULE OF PROPOSALS FOR ENGRAVING 9 RELIEF-PLATE ILLUSTRATIONS FOR BULLETIN OF UNITED STATES FISH COMMISSION FOR 1895.

Albany Engraving Company, Albany, N. Y.....	\$9.91
Moss Engraving Company, New York, N. Y.....	10.00
New York Engraving and Printing Company, New York, N. Y.....	14.50
Photo-Engraving Company, New York, N. Y.....	16.50
Electro-Light Engraving Company, New York, N. Y.....	25.08

SCHEDULE OF PROPOSALS FOR ENGRAVING 16 RELIEF-PLATE ILLUSTRATIONS FOR FOURTEENTH ANNUAL REPORT OF THE DIRECTOR OF THE BUREAU OF ETHNOLOGY.

Moss Engraving Company, New York, N. Y.....	\$51.79
Albany Engraving Company, Albany, N. Y.....	57.50
New York Engraving and Printing Company, New York, N. Y.....	58.00

SCHEDULE OF PROPOSALS FOR REPRODUCING 65 ILLUSTRATIONS FOR HOUSE DOCUMENT NO. 175,
FIFTY-FOURTH CONGRESS, FIRST SESSION.

Item 1, chromolithographing and printing 2,050 copies each of 15 illustrations:

J. Ottmann Lithographing Company, New York, N. Y.....	\$917. 00
A. Hoen & Co., Baltimore, Md.....	1, 400. 00
Julius Bien & Co., New York, N. Y.....	1, 764. 00

Item 2, engraving 50 relief-plate illustrations:

Moss Engraving Company, New York, N. Y.....	206. 05
Albany Engraving Company, Albany, N. Y.....	210. 00
New York Engraving and Printing Company, New York, N. Y.....	228. 00

SCHEDULE OF PROPOSALS FOR REPRODUCING 37 ILLUSTRATIONS FOR MONOGRAPH XXVII, UNITED
STATES GEOLOGICAL SURVEY.

Item 1, lithographing and printing 4,850 copies each of 13 illustrations:

J. Ottmann Lithographing Company, New York, N. Y.....	\$1, 812. 00
Julius Bien & Co., New York, N. Y.....	1, 877. 00
A. Hoen & Co., Baltimore, Md.....	2, 100. 00

Item 2, engraving 24 relief-plate illustrations:

Harry C. Jones, New York, N. Y.....	50. 00
The Maurice Joyce Engraving Company, Washington, D. C.....	53. 82
Moss Photo-Engraving Company, New York, N. Y.....	59. 52
New York Engraving and Printing Company, New York, N. Y.....	73. 00
Albany Engraving Company, Albany, N. Y.....	73. 84
Levytype Company, Philadelphia, Pa.....	78. 00
The F. Gutekunst Company, Philadelphia, Pa.....	88. 32

SCHEDULE OF PROPOSALS FOR REPRODUCING 132 ILLUSTRATIONS FOR SENATE DOCUMENT
NO. 137, FIFTY-FOURTH CONGRESS, FIRST SESSION.

Item 1, photolithographing and printing 2,350 copies each of 12 illustrations:

The Norris Peters Company, Washington, D. C.....	\$365. 00
Julius Bien & Co., New York, N. Y.....	425. 00
A. Hoen & Co., Baltimore, Md.....	560. 00

Item 2, engraving 120 relief-plate illustrations:

Harry C. Jones, New York, N. Y.....	675. 00
The F. Gutekunst Company, Philadelphia, Pa.....	764. 29
Moss Photo-Engraving Company, New York, N. Y.....	773. 01
New York Engraving and Printing Company, New York, N. Y.....	778. 00
The Maurice Joyce Engraving Company, Washington, D. C.....	800. 00
Levytype Company, Philadelphia, Pa.....	870. 00
Albany Engraving Company, Albany, N. Y.....	920. 00

SCHEDULE OF PROPOSALS FOR ENGRAVING 14 RELIEF-PLATE ILLUSTRATIONS FOR SEVENTEENTH
ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

The Maurice Joyce Engraving Company, Washington, D. C.....	\$45. 60
The Albany Engraving Company, Albany, N. Y.....	50. 80
Harry C. Jones, New York, N. Y.....	60. 00

SCHEDULE OF PROPOSALS FOR ENGRAVING 4 RELIEF-PLATE ILLUSTRATIONS FOR SEVENTEENTH
ANNUAL REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

The Albany Engraving Company, Albany, N. Y.....	\$4. 75
The Maurice Joyce Engraving Company, Washington, D. C.....	4. 90

SCHEDULE OF PROPOSALS FOR PHOTOLITHOGRAPHING AND PRINTING 12,200 COPIES EACH OF
35 ILLUSTRATIONS FOR HOUSE DOCUMENT NO. 279, PART 2, FIFTY-FOURTH CONGRESS, FIRST
SESSION.

The Werner Company, Akron, Ohio.....	\$1, 465. 00
Do	1, 560. 00
A. Hoen & Co., Baltimore, Md.....	1, 860. 00
Julius Bien & Co., New York, N. Y.....	2, 980. 00
The Norris Peters Company, Washington, D. C.....	3, 085. 00
J. Ottmann Lithographing Company, New York, N. Y.....	3, 209. 00

SCHEDULE OF PROPOSALS FOR REPRODUCING 39 ILLUSTRATIONS FOR SEVENTEENTH ANNUAL
REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Item 1, chromolithographing and printing 15,350 copies each of 5 illustrations

A. Hoen & Co., Baltimore, Md.	\$1,400.00
Julius Bien & Co., New York, N. Y.	1,578.00
J. Ottmann Lithographing Company, New York, N. Y.	1,591.00

Item 2, engraving 34 relief-plate illustrations:

The Albany Engraving Company, Albany, N. Y.	87.06
The Moss Photo-Engraving Company, New York, N. Y.	90.15
The Maurice Joyce Engraving Company, Washington, D. C.	96.96
The F. Gutekunst Company, Philadelphia, Pa.	99.59
Harry C. Jones, New York, N. Y.	100.00

SCHEDULE OF PROPOSALS FOR REPRODUCING 10 ILLUSTRATIONS FOR SEVENTEENTH ANNUAL
REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 3.

Item 1, chromolithographing and printing 15,350 copies each of 2 illustrations.

Julius Bien & Co., New York, N. Y.	\$636.00
A. Hoen & Co., Baltimore, Md.	660.00
J. Ottmann Lithographing Company, New York, N. Y.	872.00

Item 2, engraving 8 relief-plate illustrations:

The Maurice Joyce Engraving Company, Washington, D. C.	4.02
The Moss Photo-Engraving Company, New York, N. Y.	5.25
The Albany Engraving Company, Albany, N. Y.	6.52
Harry C. Jones, New York, N. Y.	8.00

SCHEDULE OF PROPOSALS FOR REPRODUCING 12 ILLUSTRATIONS FOR SEVENTEENTH ANNUAL
REPORT OF THE DIRECTOR OF THE UNITED STATES GEOLOGICAL SURVEY, PART 2.

Item 1, chromolithographing and printing 15,350 copies of 1 illustration:

A. Hoen & Co., Baltimore, Md.	\$125.00
J. Ottmann Lithographing Company, New York, N. Y.	155.00
Julius Bien & Co., New York, N. Y.	159.00

Item 2, engraving 11 relief-plate illustrations:

The Maurice Joyce Engraving Company, Washington, D. C.	9.84
The Albany Engraving Company, Albany, N. Y.	11.70
The Moss Photo-Engraving Company, New York, N. Y.	12.15
The F. Gutekunst Company, Philadelphia, Pa.	14.85
Harry C. Jones, New York, N. Y.	15.00

No. 30.—Statement showing the number of persons employed in the public printing and binding (including Congressional Record) during the fiscal year ended June 30, 1896, with the length of time each has been employed and the amount each has received.
